LB 671

certainly have no equality now when we spend our own money to travel into the sessions and are not reimbursed only for one trip in here and back. So I support this. I think it'll solve the problems for the counties and they won't be in doubt anymore as to whether they can do it or not and I can't believe that it would be abused because you're using your own time to do this traveling and coming into the meetings and so, therefore, I certainly hope you will support LB 671. Thank you.

SPEAKER NICHOL: Senator Higgins.

SENATOR HIGGINS: Thank you, Mr. President. Would Senator Lamb or Senator Kahle yield to a question?

SPEAKER NICHOL: Senator Lamb, respond please.

SENATOR LAMB: Yes.

SENATOR HIGGINS: Senator Lamb, is there a provision in this bill that says that those members residing within the county seat would not receive mileage? In other words, those members of a county board or a board of supervisors who live in the same city or town that they're holding the meeting would not be reimbursed for their mileage.

SENATOR LAMB: That, that's not specifically in the bill, no.

SENATOR HIGGINS: That's not in the bill. I recall we discussed that in committee and for some reason, I thought there was a committee amendment to that effect.

SENATOR LAMB: Yeah, I had the impression that the committee was going to have that as an amendment but I see it's not on the bill.

SENATOR HIGGINS: Okay. I thought that that was a committee amendment. Perhaps I was wrong and perhaps the committee did not vote for it but somehow I thought they did. Thank you.
